## DEEP CLEAN ○ STIMULATE ○ ENERGIZE

**FERM-T** was developed in 1975 by Erne Terrazas who was the first to pioneer, research and develop Jojoba as a natural, synergetic, personal care ingredient.

One of the causes of thinning hair, slow growth and excess fallout is due to sebum (oil), bacteria, and DHT build up at the hair follicle entrance. The residue on the scalp makes your hair follicles extremely unhealthy, and inhibits hair growth.

Ferm-T Super Hair Energizer products help dissolve and remove oily scalp buildup (sebum) from the follicle opening. Once the follicle opening is "free" of buildup, the active enzymes and nutrient-rich Ferm-T actively penetrates and nourishes the hair follicle, promoting healthy hair growth naturally!
